X-431 Remote Diagnosis: 2012 Passat "09 Electric Central Electronic Device" Hiding Function Operation Method

Vehicle Coverage:

Shanghai VW Passat, 2012, VIN:LSVCB2A40CN02**** as shown in Figure 1.

Figure 1

Prerequisites:

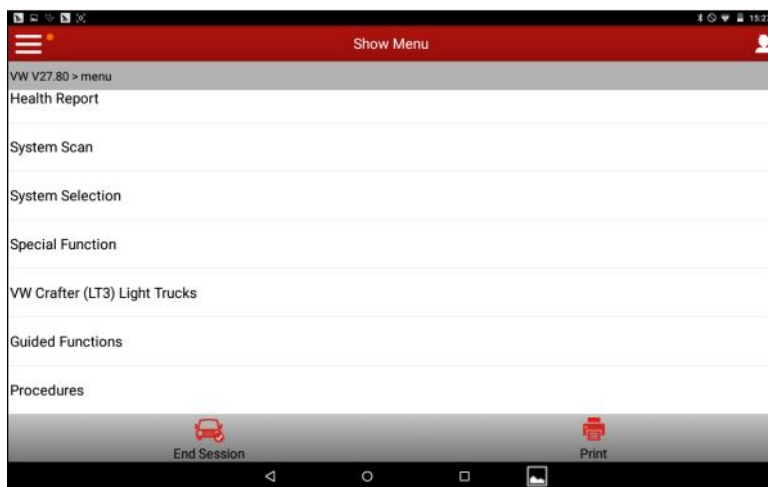

The ignition switch is on.

Battery voltage is kept above 12V.

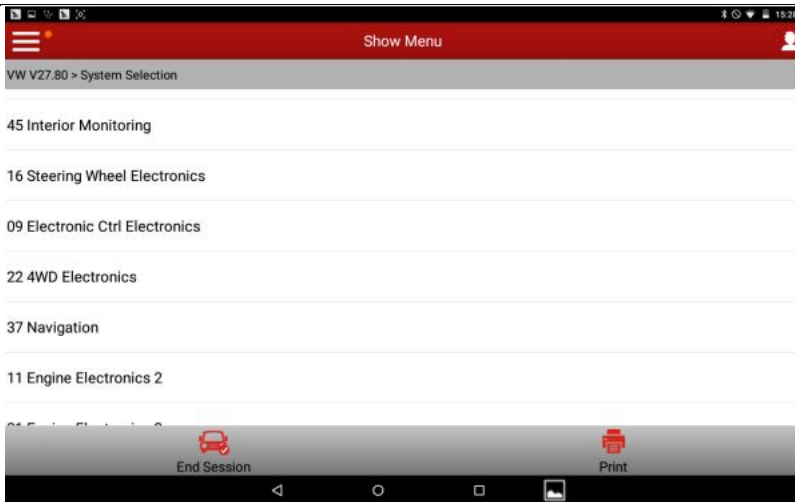

The WiFi is good, otherwise, poor signal may cause diagnostic fault.

Procedure:

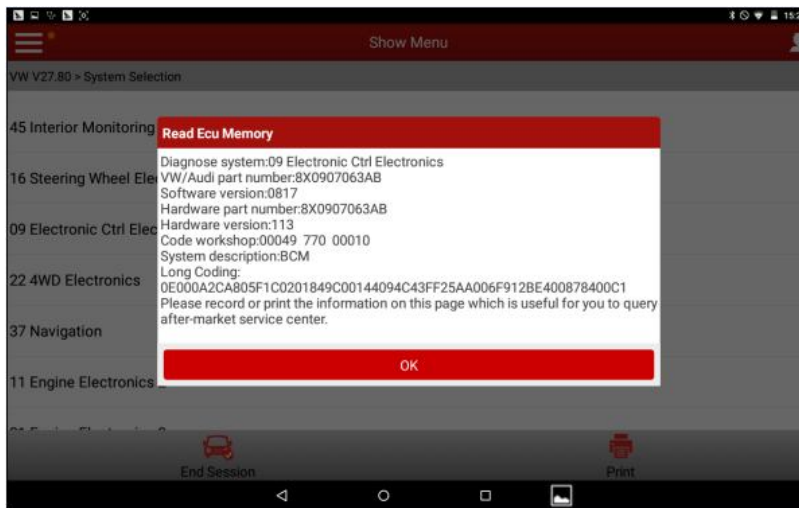

1. Choose Shanghai VW V27.80 or a later version.
2. Choose System Selection.

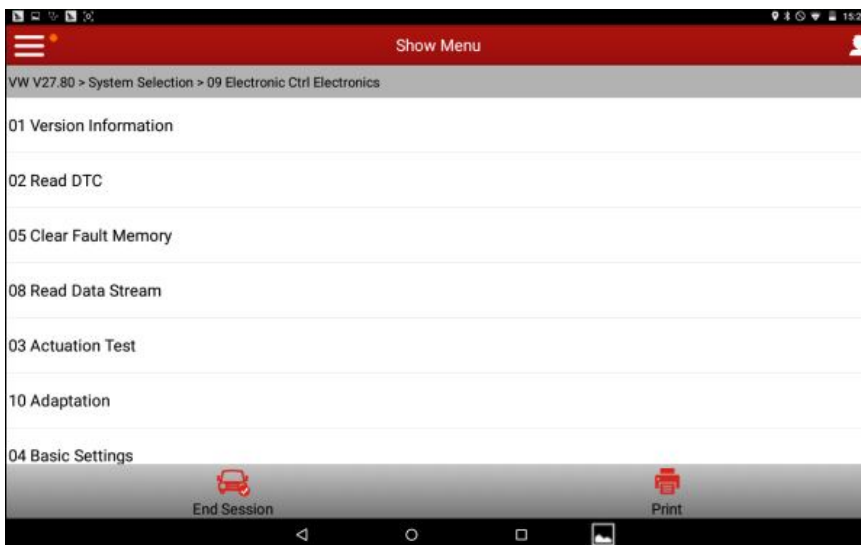

3. Choose "09 Electric central electronic devices".

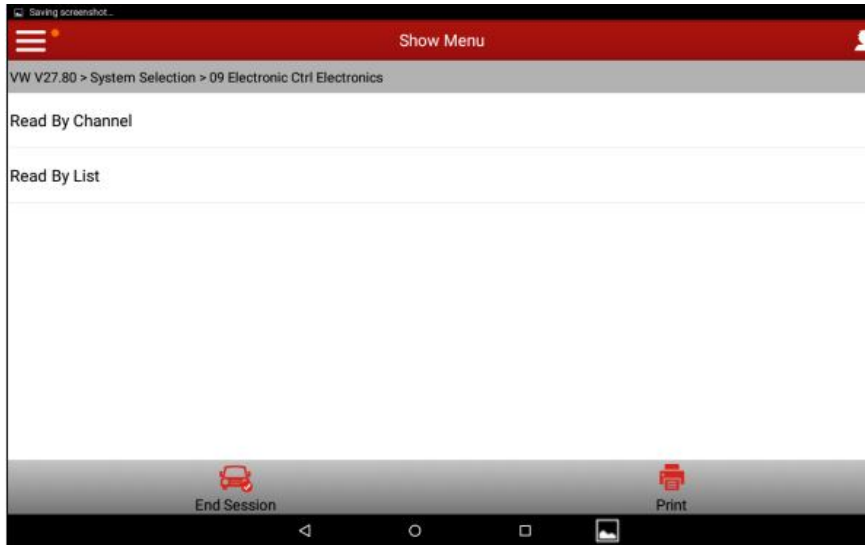

- 4. The ECU information of 09 Electric central electronic devices is displayed.

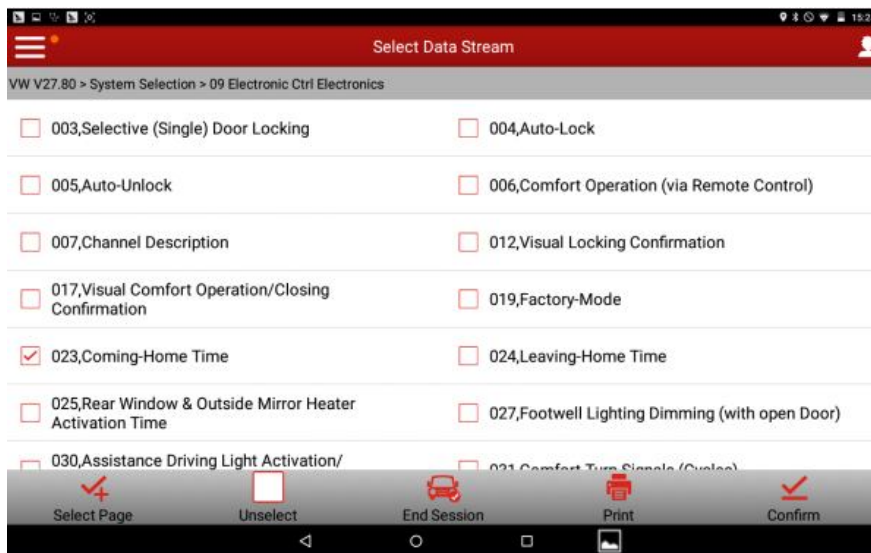

- 5. Choose "10 Channel adjustment matching".

- Choose Read by List (if you choose Read by Channel, input the channel number 000).

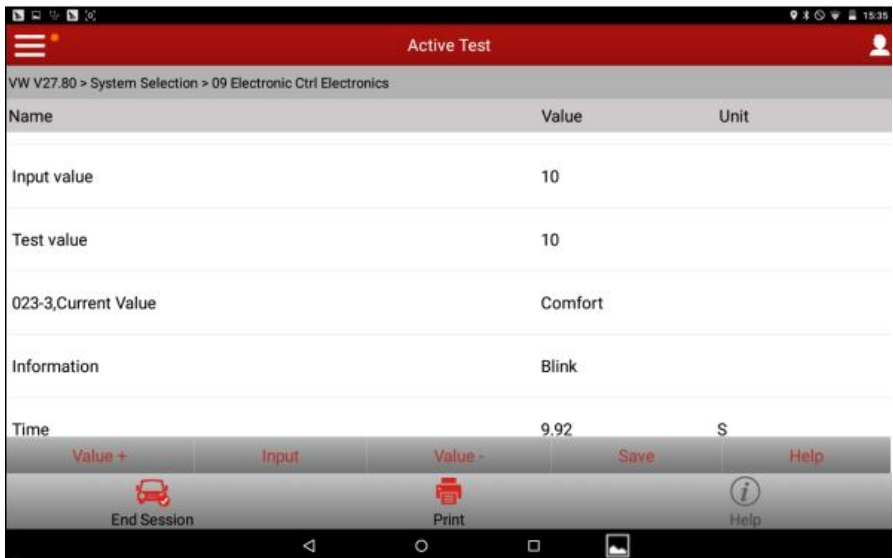

- Choose "023, go home time" and click OK.

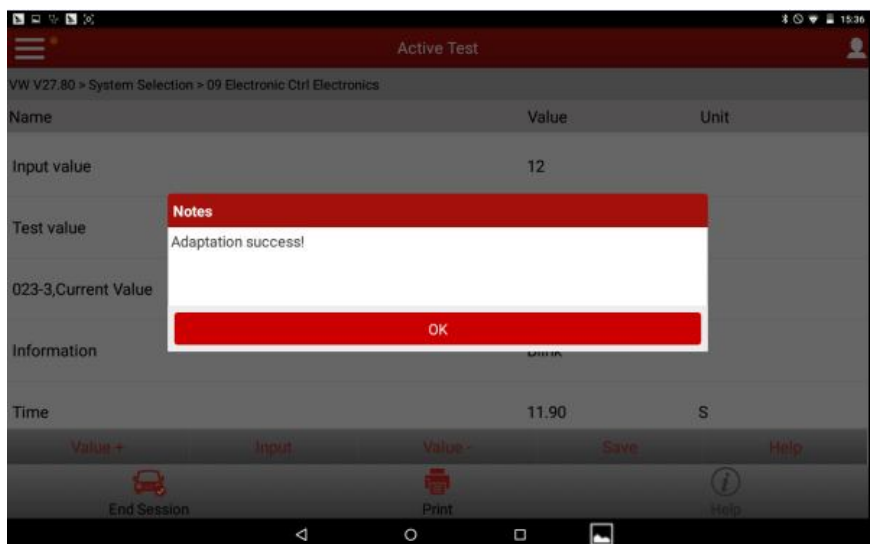

- The following values are displayed.

9. Here, increasing 2s is taken as an example. Click Value+ twice. The following values are displayed.

10. Click Save. Channel matching is successful. Click OK. Setting the go-home duration from 9.92s to 11.90s is successful.
